The Honorable Jane Dee Hull
Governor
State of Arizona
1700 West Washington
Phoenix, Arizona 85007

Dear Governor Hull:

It is a pleasure to present the annual financial report of the Arizona State Treasury for fiscal year 2002. During this year of budget upheaval we have consistently tried to add value where we could to short term investments for state agencies, counties, cities and towns. Safe predictable returns are more important than ever.

The Office ended the year with a combined total of investments fair valued at \$8.1 billion. Of the \$8.1 billion in investments at year-end, \$425 million was invested in equities. At June 30, 2002, the fair value of all endowment funds totaled \$1 billion. The yield for regular investment pools averaged 3.18 percent and a total of \$233 million was distributed to pool participants.

Pursuant to A.R.S. §35-316 D, which provides for an investment management fee on pools other than the permanent endowment, we transferred \$5,762,125 earned from July 1, 2001 through June 30, 2002, to the general fund.

Our custody of performance bond cash and securities stood at \$3.01 billion with all negotiable securities held at a custody institution. Distributions of state revenues totaled \$7.0 billion.

As always, the entire staff is proud of the accomplishments in the preceding year and we will continue to face new challenges in the coming year and provide the citizens of Arizona the exceptional service they deserve.

Sincerely,

Carol Springer
State Treasurer

NOTES TO FINANCIAL STATEMENTS
June 30, 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona, Office of the Treasurer (Treasurer) conform to generally accepted accounting principles applicable to governmental units as adopted by the Governmental Accounting Standards Board (GASB). During the year ended June 30, 2002, the State implemented GASB Statement No. 34, as amended by GASB Statement No. 37, which prescribes a new reporting model consisting of both government-wide and fund financial statements. The state also implemented GASB Statement No. 38, which prescribes new and revised note disclosures. As a result of implementing GASB Statement No. 34, the Treasurer made two insignificant reporting changes. A Statement of Fiduciary Net Assets is presented instead of a Combining Balance Sheet for Fiduciary Funds and fund equity has been relabeled as net assets. A summary of the Treasurer's more significant accounting policies follows.

Reporting Entity - The Investment Trust Funds and Agency Funds account for the assets held by the Treasurer as custodian or fiscal agent for various governmental fund types of the State of Arizona as well as political subdivisions and public entities investing in the State Agencies Investment Pool 3, Local Government Investment Pool (LGIP), and Local Government Investment Pool-Government (LGIP-GOV).

Although reported as Investment Trust Funds and Agency Funds by the Treasurer, these funds become a part of the State of Arizona's governmental, propriety, and fiduciary fund categories at the combined statewide level.

Fund Accounting - The Treasurer's accounts are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions on the Treasurer's available resources are observed. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for those resources. Accordingly, the above-described financial transactions have been recorded and reported in the Investment Trust Funds and Agency Funds. A description of the fund types follows.

The *Investment Trust Funds* account for investments made by the Treasurer on behalf of other governmental entities using the economic resources measurement focus.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the Treasurer holds for state departments, agencies, commissions, boards, and other governments in an agency capacity.

Basis of Accounting - The financial statements of the Investment Trust Funds and Agency Funds are presented on the accrual basis of accounting. Revenues or receivables are recognized when they are earned, and expenses or liabilities are recognized when they are incurred.

NOTE 2 - ASSETS

Deposits and Investments - Arizona Revised Statutes (A.R.S.) §35-312, §35-313, and §35-314 authorize the Treasurer to invest operating, trust, and permanent endowment fund monies. In accordance with the requirements of these statutes, deposits and investments at June 30, 2002, included cash in bank and on hand, shares of fixed-income pools, collateralized repurchase agreements, bills, notes, and other obligations of the U.S. government and its agencies, corporate securities, commercial paper, negotiable certificates of deposit, Board funding obligations, shares in S&P 400 and 500 Index Pools. As required by statute, collateral is required for demand deposits, nonnegotiable certificates of deposit, and repurchase agreements at 102 percent of any amounts not covered by Federal depository insurance.

At June 30, 2002, the carrying amount of the Treasurer's deposits was \$163,697,968, and the bank balance was \$163,696,785. Of the bank balance, \$547,140, was covered by Federal depository insurance. The remaining balance, \$163,149,645, was collateralized by securities held by the bank's trust division or agent in the Treasurer's name in book-entry form.

The State invests in various mortgage-backed securities in pools 2, 3, and the land earnings funds for the fixed-income pool. These securities are reported at fair value on the Statement of Fiduciary Net Assets. In addition, they are reported in aggregate, by pool and fund, as U.S. Government and Agency Securities and Shares of Fixed Income Pool in the following disclosure of cost and fair value amount. These securities are purchased to diversify the pools' exposure to maturity and credit risks while providing for enhanced yields. The credit risk associated with holding these securities is reduced since all of these securities are rated AAA by Standard and Poor's and/or Moody's rating services. The market risk associated with holding these securities is linked to maturity risk since as interest rates rise the fair value of these securities will fall and prepayment of principal balances will decelerate. When interest rates fall, the fair value of these securities will rise and prepayment of principal balances will accelerate. The securities described herein are authorized under A.R.S. §35-313.

The State Treasurer's Office invests in SEC-registered investment pools that have readily available share prices.

There is no income from investments associated with one fund that is assigned to another fund.

NOTE 2 - ASSETS (Cont'd)

Securities Lending

The State Treasurer (Treasurer) is permitted by Title 35, Chapter 2, Article 2 of the Arizona Revised Statutes to enter into securities lending transactions. The custodial bank, Credit Suisse First Boston (CSFB), manages the securities lending transactions through a contractual agreement with the Treasurer. CSFB enters into securities lending contracts only from an approved list of borrowers provided by the Treasurer. There was no credit risk (i.e., lender's exposure to the borrowers of its securities related to the securities lending transactions at June 30, 2002). As of June 30, 2002, the amounts owed by the Treasurer exceeded the amounts owed by the borrowers. During the fiscal year ended June 30, 2002, there were no violations of legal or contractual provisions, and there were no borrower or lending agent default losses to the securities lending agent. U.S. Government bonds and domestic equities are loaned for cash as collateral and there are no restrictions on the amount of loans that can be made. The Treasurer requires at least 102% of the market value of the loaned securities on the date of the loan, and no less than 100% for the duration of the loan. The Treasurer does not have the ability to pledge or sell collateral securities unless the borrower defaults. Additionally, CSFB provides indemnification to the extent of borrower default. The fair value at June 30, 2002, for loaned securities collateralized by cash was \$17.17 million. As part of the securities lending transactions, CSFB received cash collateral valued at \$17.96 million. Investments are held by CSFB in the Treasurer's name.

The maturities of investments match the maturities of securities on loan. On June 30, 2002, both the cash collateral reinvestment and the term of all loans outstanding were one day. During the same period, there were no losses on securities lending transactions resulting from borrower or lending agent default. Investments made with cash collateral received are classified as an asset at fair value on the Statement of Fiduciary Net Assets. A corresponding liability is recorded as the Treasurer must return the cash collateral to the borrower upon expiration of the loan. At June 30, 2002, the Treasurer had \$17.96 million outstanding as payable for securities lending.

Internal Investment Pools

Fair values of securities are determined using QED Information Systems (QED), an independent outside pricing service (when the price is provided). Securities not priced by QED, with a maturity of 91 days or more and all securities with a maturity of 90 days or less that were held at the beginning of the current fiscal year are priced using a market price solicited from the selling broker or a second outside pricing service. All securities with a remaining maturity of 90 days or less, that have no QED price available, and were not held at the beginning of the current fiscal year, are priced using amortized cost (amortizing premium/accreting discount

OFFICE OF THE TREASURER

on a straight-line to maturity method). If different amortized cost prices exist, the weighted average amortized cost price is given to all securities with the same CUSIP ID numbers.

External Investment Pools

The State Agencies Investment Pool 3, the Local Government Investment Pool (LGIP), and Local Government Investment Pool-Government (LGIP-GOV) are external investment pools managed by the State Treasurer's Office with no regulatory oversight. The State Agencies Investment Pool 3 is considered an external investment pool because it includes participants that are not part of the State's reporting entity. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the 1940 Investments Advisors Act. The activity and performance of the pools is reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311. Before the end of the fiscal year, the Central Arizona Water Conservation District (CAWCD) transferred all of their money from Pool 3 (State Agencies Investment Pool) to Pool 5 (LGIP). CAWCD was the only external reporting entity that was invested in Pool 3. As a result of this transfer, there are no "external" balances at year-end in Pool 3 (see pages 22 and 23).

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding.

The State Treasurer's Office does not contract with an outside insurer in order to guarantee the value of the portfolio or the price of shares redeemed.

The State Treasurer's Office only makes investments in external investment pools that are registered with the Securities and Exchange Commission.

The State Treasurer's Office is not an involuntary participant in another entity's external investment pool.

The State Treasurer's Office is not aware of any involuntary participation in the pool. Participants meeting the criteria established under A.R.S. §35-316 are eligible to participate in the pool and are not required to disclose the reason for requesting the account.

The following is summary information for the external investment pools as of June 30, 2002:

NOTE 3 - MONIES ON DEPOSIT

The State Treasurer holds monies for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities. The difference between the amounts presented on the summary and total liabilities and net assets equity reported on the Statement of Fiduciary Net Assets is the result of timing differences and other reconciling items.

Independent Auditors' Report

Members of the Arizona State Legislature

The Honorable Carol Springer
State Treasurer

We have audited the accompanying financial statements of the State of Arizona, Office of the Treasurer as of and for the year ended June 30, 2002, as listed in the table of contents. These financial statements are the responsibility of the Office of the Treasurer's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the Office of the Treasurer's financial statements are intended to present the financial position, results of operations, and changes in financial position of only that portion of the fiduciary activities of the State of Arizona that is attributable to the transactions of the Office of the Treasurer. They do not purport to, and do not present fairly the financial position, results of operations, and changes in financial position of the State in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Office of the Treasurer as of June 30, 2002, and the results of operations, and changes in financial position of its investment trust funds for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Note 1, the State adopted the provisions of GASB Statement No. 34, *Basic Financial Statements— and Management's Discussion and Analysis— for State and Local Governments*, for the year ended June 30, 2002, to implement a new financial reporting model.

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Office of the Treasurer taken as a whole. The financial statements of the external investment pools listed as supplemental information in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The Summary of Cash on Deposit with Treasurer and accompanying note listed as supplemental information in the table of contents has not been subjected to the auditing procedures applied in our audit of the financial statements and, accordingly, we express no opinion on such information.
